

Wow! Fun Learning!!

Get Education City at Home

Parents,

Great News!

Education City at Home is available for the 2011-2012 School Year.

'Education City' is an online software program (www.educationcity.com) that targets Georgia learning standards in the areas of Math, Language Arts, and Science. Students work on creative activities that teach them needed academic strands at the same time. The children love this software!

Home licenses usually cost around \$75 for the year but through Brookwood Elementary you can purchase a home license for **\$10** for one child and **\$5** for each additional child in the same family.

This will cover the school's cost of \$4 per license and have the remaining monies go back into the Technology budget at Brookwood to help defray the cost of next year's renewal fees for this on-line software.

Please send cash or a check made payable to **Brookwood Elementary School** with 'Education City' in the memo line and provide the following information so we can provide home access for your child for the 2011-2012 school year. All subscriptions will be active until September 1, 2012.

_____ (Child's Name) _____ (Teacher) **\$10**

_____ (2nd Child) _____ (Teacher) **add \$5**

_____ (3rd Child) _____ (Teacher) **add \$5**

_____ (Parent) _____ (Phone)

Thank you,

Jeannie Suender
Local School Technology Coordinator
